- HubSpot Inbound Marketing Certified
- Microsoft Azure AI Fundamentals

EDUCATION

Bachelor of Science
Business Administration
Old Dominion University
Norfolk, VA
2010 – 2013

PROFESSIONAL EXPERIENCE

AI AUTOMATION ENGINEER & FOUNDER

2014 – PRESENT

Jolley Leads Automation Solutions | Virginia, USA

Built and deployed AI-driven automation systems, machine learning models, and business workflows for a wide range of industries. Designed full-stack web apps and integrated systems that streamline operations, increase revenue, and reduce manual work.

- Developed and automated end-to-end workflows for law firms, car dealerships, contractors, and media companies using Make.com, Python, and Google Workspace.
- Created AI-powered lead generation, follow-up, and CRM systems that increased conversion rates by 30–60% for multiple businesses.
- Built and deployed 15+ machine learning applications for prediction, classification, and recommendation using Python, TensorFlow, and Scikit-learn.
- Engineered custom web applications and APIs with Python, Node.js, Express, and React for data-driven decision making.
- Integrated 40+ platforms (Gmail, Drive, Sheets, Slack, HubSpot, Airtable, etc.) to automate business processes and reporting.
- Manage hosting, deployment, and scaling of applications on AWS, Heroku, and Railway.

AUTOMATION & SYSTEMS CONSULTANT

2017 – PRESENT

Freelance | Remote

Partner with business owners to identify inefficiencies and build intelligent automation solutions that save time, reduce costs, and drive growth.

- Automated client intake, document management, and case tracking for multiple law firms.
- Built AI-powered inventory and lead management systems for car dealerships.
- Automated scheduling, quoting, and follow-up workflows for electrical contractors.
- Created content pipelines, email automation, and reporting dashboards for Discovery Channel Communications.

WEB DEVELOPER & DIGITAL MARKETING SPECIALIST

2013 – PRESENT

Self-Employed | Remote

- Designed and developed responsive websites, landing pages, and eCommerce stores.
- Implemented SEO strategies, Google Ads, and social media campaigns that generated thousands of qualified leads.
- Built analytics dashboards to track performance and ROI across marketing channels.
